## HELPFUL HINTS

"You can prevent that annoying fog that builds up on the bathroom mirror when showering by applying aftershave to the mirror's surface. Spray a small glob in the middle and then spread it over the surface with a cloth, then you wipe the surface clean and.... Walla! You have a mirror that is fog resistant for at least three weeks"

-----  
To get your shower door clean, shiny, and streak-free rub with a damp sponge soaked in white vinegar.

## QUOTE OF THE MONTH

"Human beings, who are almost unique in having the ability to learn from the experience of others, are also remarkable for their apparent disinclination to do so."
